

## CD PAPER SLEEVE TEMPLATE

**cropping marks** are offset by 3mm from the exact size

**bleed 5 mm** will be cut off during final trimming. Its purpose is to prevent occurrence of white unprinted edges in case of minor imprecisions

**exact size** of the sleeve is 125 mm x 250 mm

**flap** serves for gluing the sleeve together, 9mm width, prepare it just in one half of the document

**place bending marks** in the middle of the document

- **For the export,** set the bleed 9mm (so that the dotted line marking end of the flap is visible) and cropping marks offset 5mm

- **Text:** Bending over has to be taken into account - the text in one half must be upside down
